1. Project Title :

SAKHI SANGATH

2. Project Overview :

Mobile App Development for Women Ride Booking refers to the process of designing, developing, and deploying a mobile application that provides safe and convenient transportation services exclusively for women. The app enables female users to book rides, track drivers in real-time, and make secure digital payments through their smartphones. It is designed with a focus on user safety, privacy, and comfort, incorporating features like women-only drivers, live tracking, and verified driver profiles.

3. Project Objectives :

Ensure Safety and Security:
To provide a safe travel experience for women by allowing rides only with verified female drivers and offering safety features like SOS alerts and real-time location sharing.

Promote Women Empowerment:
To create employment opportunities for women drivers and promote women's participation in the transportation sector.

Offer Convenient Transportation:
To provide an easy-to-use platform where women can quickly book rides anytime and anywhere through a mobile app.

Enhance Trust and Reliability:
To build a trusted network through verified profiles, ratings, and feedback systems for both riders and drivers.

Enable Real-Time Tracking:
To allow users and their family members to track the ride in real time for safety assurance.

4. Project Scope :

4.1 User Management:-

-User Registration and Login (Email/Password, Google Sign-In).
-Profile Management (Name, Email, Progress, Bookmarked Questions).
-Change password

4.2 Core Features:-

-User / Passenger Sign Up & Profile
-Driver Sign Up & Profile
-Ride Booking Flow
- Fare Estimation & Pricing
-Ride Status Updates & Notifications
-Payment Handling
-Rating & Feedback System
-Safety Features
-Basic Backend/Admin

4.3 Additional Features:-

-Scheduled Rides / Pre-booking
-Multiple Vehicle Types
-Promotions / Referral System
-Multiple Stops / Route Changes
-Ride History & Receipts
-Driver Earnings Dashboard & Payouts
-Safety Enhancements

4.4 Notification System :-

-Ride Request Received and Accepted
-Driver On the Way
-Driver Arrived at Pickup

-Ride Started
-Ride Completed
-Payment Status
-New Driver Verification / Approval
-Ride Cancelled
